## MASTER FEE SCHEDULE

### Chapter 1 - General

## Introduction

City of Chula Vista Finance Department  
276 Fourth Avenue, Chula Vista, CA 91910

## FEE BULLETIN

# 1-100

May 2010

### GENERAL

Section 3.42.010 of the Chula Vista Municipal Code states that the City Council shall adopt, by resolution, a Master Fee Schedule, indicating therein the fees for all services, administrative acts and other legally required fees, which resolution may be amended from time to time and shall be effective upon first reading and approval; provided, however, such resolutions may specify therein their applicability, if any, to applications currently in the process of review.

A copy of the Master Fee Schedule shall be maintained in the office of the City Clerk and in each department of the City.

Print copies of the Master Fee Schedule may be purchased.

Fee per printed schedule .....\$6.00

### DELINQUENT PAYMENT

Unless otherwise specified by ordinance, resolution, Master Fee Schedule or invoice, a payment shall be considered delinquent or late if it is not received within thirty (30) days of billing. Delinquent payments shall be subject to the Delinquent Payment Penalty detailed in Fee Bulletin 13-100.

### FEE WAIVERS

The fees set forth in the Master Fee Schedule may be waived or deferred, in whole or in part, by the Waiving Authority, as defined herein below, in accordance with the following procedures:

Any person requesting a reduction, waiver or deferral, or a combination thereof, of a fee herein charged shall request said adjustment in writing, addressed to the Waiving Authority, and shall set forth therein, with specificity, the reasons for requesting said abatement of all or any portion of the fees.

The Waiving Authority shall conduct a public hearing, notice of which is not required to be published. Notice of said public hearing shall be given to the applicant and to any party or parties requesting notice of same.

Prior to adjusting all or any portion of a fee established in the master fee schedule, the Waiving Authority shall find that either:

(1) the fee, when applied in the particular case under review, would require the applicant to pay an amount which is significantly and disproportionately larger than other fee payers given the rights of enjoyment of, or benefits of, the facility or program for which the fee is paid, or

(2) the applicant will suffer a peculiar economic hardship or other injustice from the payment of the fee which outweighs, when balanced against, the need of the City for revenue and the need for a uniform method of recovering same from those against whom it is imposed.

The Waiving Authority shall impose such terms and conditions on the adjustment as deemed appropriate, and shall give due consideration to terms and conditions involving interest on amount deferred, security to assure the eventual collection.

Waiving Authority, as the term is used herein, shall mean the City Manager, or his designee, if the amount of such waiver is less than or equal to the greater of (1) \$2,500 or (2) 25% of the fee imposed by the Master Fee Schedule. If the amount of the waiver is greater than the greater of \$2,500 or 25% off the original fee imposed by the Master Fee Schedule, the Waiving Authority, as used herein shall mean the City Council.

## LOW INCOME HOUSEHOLDS

Eligibility for City programs or fee schedules restricted to low income households shall be based on the 80% level of median family income for the San Diego Metropolitan Statistical Area as determined annually by the federal Department of Housing and Urban Development and detailed below:

NO. IN HOUSEHOLD	MAXIMUM ANNUAL FAMILY INCOME (Gross for Eligibility)
1	\$46,250
2	\$52,900
3	\$59,500
4	\$66,100
5	\$71,400
6	\$76,700
7	\$81,950
8	\$87,250

An additional \$1,000 annual income allowed for each additional person in household in excess of eight (8).

## COST RECOVERY

The Master Fee Schedule reports fees for services that are provided to our citizens and visitors. The cost of providing these services includes both direct staff costs and various support and overhead costs. Fees that do not recover the full cost of providing services result in a subsidy which shifts funds away from critical, high priority needs such as public safety initiatives and infrastructure maintenance.

In November 1982 the City Council adopted Resolution 11063 adopting a policy of full cost recovery, under which both the direct and overhead costs associated with providing public services are identified and, when possible, recovered. To facilitate this process, City staff annually develops a set of fully burdened hourly rates (FBHR), providing a convenient method for calculating the full costs of services. A discussion of the costs included in the calculation of the FBHR, as well as the current fiscal year rate for each classification in the City is detailed in Fee Bulletin 1-200.

The City's fully burdened rates serve as a basis for identifying the true cost of providing services, calculating fixed fee levels, and understanding the fiscal impacts of fee subsidies.

The City's fully burdened rates are not subject to annual Council adoption and are included in the Master Fee Schedule for informational purposes only. Please contact the Finance Department to confirm current rates.

### 1. Full Cost Recovery Deposits

Significant variances in staff time required to provide certain services make application of a fixed fee schedule impracticable. In these instances, the applicant is charged for services provided on a reimbursement basis, using the fully burdened hourly staff rates. These reimbursement based fees are designated in the Master Fee Schedule as "full cost recovery".

#### Initial Deposit

For each such fee, an initial deposit is required. The average initial deposit amount, or an initial deposit schedule, is provided in the Master Fee Schedule for each full cost recovery deposit based fee. In all instances, the department shall determine the appropriate deposit for each application and shall attempt to limit that deposit to a reasonable amount.

#### Additional Deposits

If, at any time, it appears that the deposit amount will be insufficient to cover accumulated City costs, the applicant shall deposit additional amounts as required by the Department Head.

#### Consultant Services

If the City determines that consultants are required to assist in the processing of any permit, the City reserves the right to retain and pay such consultants from fees collected from the applicant.

#### Release of Deposit

Any funds remaining on deposit at the time of the completion or withdrawal of the application shall be returned to the depositor, after accounting for expenses, including overhead, incurred to date.

FEE BULLETIN

# 1-200

May 2010

## BACKGROUND

In providing public services to its citizens and visitors the costs incurred by the City of Chula Vista extend far beyond staff salaries. These costs can be divided into direct and overhead costs.

### Direct Costs

Direct costs are costs that can be specifically identified with a particular activity, project or program. These costs generally include salaries and wages; fringe benefits and paid time off; maintenance and operation costs; and a building use allowance.

Fringe benefits for full time City employees include participation in the California Public Employee Retirement Systems (CalPERS), medical insurance, workers' compensation insurance, and Medicare. Paid time off includes vacation time, holidays, sick leave, compensatory time, and management leave.

Maintenance and operation costs are determined at the department and section level. These costs include most, but not all, supplies and service costs, fixed asset replacement, and utilities.

The building use allowance provides a means of allocating the cost of city building to a period benefitting from the asset use. The allowance is calculated based upon the City's schedule of depreciating buildings as reported in the Certified Annual Financial Report (CAFR) assuming a 50 year life-span.

### Overhead Costs

Overhead costs include both departmental and citywide support staff expenses. Departmental overhead includes administrative and supervisory support staff and is allocated by division within each department.

Citywide overhead includes services provided by support departments. These departments do not generally provide services directly to the public but are essential to the operation of the City. In addition, certain budget items within departmental budgets are of citywide benefits and are added to the citywide overhead allocable costs. Citywide overhead costs are allocated at the department level, based upon various drivers. The specific

drivers applied are selected to best reflect the relative benefit received.

## FULLY BURDENED HOURLY RATES

City staff annually adopts a set of fully burdened hourly rates (FBHR), providing a convenient method for calculating the full cost of providing services to citizens and visitors. Rates are calculated by department, section, and classification.

These rates serve as a basis for identifying the true cost of providing services, calculating fixed fee levels, and understanding the fiscal impacts of fee subsidies.

The City's fully burdened hourly rates are not subject to annual Council adoption and are included in the Master Fee Schedule for informational purposes only. Please contact the Finance Department to confirm current rates.

The current schedule of fully burdened hourly rates is as follows:

\*HCF – Hundred Cubic Feet.

Rates include Sewer Service Charge, Sewer Facilities Replacement Fee and Storm Drain Fee.

## RESIDENTIAL RATES

### 1. Single Family

The sewer service charge for each single family dwelling unit serviced by a separate water meter is based on the lowest “Winter Average”, which is the lowest amount of water consumed during the preceding winter months (November through April). The rate shall be in accordance with the adopted rate schedule. Each single family dwelling will be charged a fixed service charge and a variable commodity rate.

A rate of return (ROR) of 90% is assumed for all single family dwelling units.

### Single Family Billing Formula

$$\begin{matrix} \text{Lowest} \\ \text{“Winter} \\ \text{Average”} \end{matrix} \times \begin{matrix} 90\% \\ \text{ROR} \end{matrix} \times \begin{matrix} \$ \text{ Sewer} \\ \text{rate/} \\ \text{HCF} \end{matrix} + \begin{matrix} \text{Fixed} \\ \text{Service} \\ \text{Charge} \end{matrix} = \begin{matrix} \text{Monthly} \\ \text{Sewer} \\ \text{Charge} \end{matrix}$$

### 2. Multi – Family

The sewer service charge for other parcels of real property used for domestic purposes and serviced by a water meter shall be at the prevailing rate per each one hundred cubic feet (HCF) of water usage by such parcel. Each parcel will be charged a fixed service charge and a variable commodity charge. The fixed charge will be assessed for each meter that services the facility and will be dependent on the size of the meter.

A rate of return (ROR) of 79% is assumed for all multi-family dwellings and 84% for mobile homes.

#### Multi – Family Billing Formula

Total Meter Readings (Monthly)	x	ROR	x	HCF Rate for Sewage Class	+	Fixed Service Charge	=	Monthly Sewer Charge
---	---	-----	---	------------------------------------	---	----------------------------	---	----------------------------

### 3. Sewer Service Charge for Low Income Households

Low Income Households (as defined in Fee Bulletin 1-100) including renters of property who are eligible to receive a reduced rate for monthly sewer service charges, shall be billed a commodity rate that is 70% of the prevailing rate. The Finance Department of the City shall make available the required application form and process all applications. Application will require the submittal of information on total household income, the number of persons in the household and the type of dwelling unit. Proof of total annual income shall be furnished.

Requests for annual refunds shall be made by eligible households between August 1 and September 30 of each year for the past fiscal year beginning July and ending in June. The applicant will be notified of eligibility status within thirty (30) days of application and if eligible, the refund forwarded within ninety (90) days of application.

## COMMERCIAL & INDUSTRIAL RATES

The sewer service charge for premises used for other than domestic purposes shall be at the prevailing rate per hundred cubic feet (HCF) of water usage. The non-residential sewer service charge shall consist of a fixed service charge and a variable commodity charge. The fixed charge will be assessed for each meter that serves the facility and will be dependent on the size of the meter.

The variable commodity charge shall be based on the quantity and strength of the sewage generated using a rate of return (ROR) of 90% and two strength parameters: BOD – biochemical oxygen demand and TSS – total suspended solids concentrations

#### Commercial Billing Formula

Total Meter Readings (Monthly)	x	ROR	x	HCF Rate for Sewage Class	+	Fixed Service Charge	=	Monthly Sewer Charge
---	---	-----	---	------------------------------------	---	----------------------------	---	----------------------------

#### 1. Rate of Return

Unless otherwise established by an approved variance, wastewater discharge shall be assumed to be 90% of water consumed. Therefore, where commercial or industrial facilities are billed on the basis of wastewater discharge, the regular sewer service rate shall be multiplied by 0.90.

#### 2. Wastewater Strength

Wastewater strength categories will be determined using either Table 2-2 “City of Chula Vista Compilation of Published Data on Sewer User Strength classifications” (excerpted from the Wastewater User & Rate Restructuring by PBS&J dated May 2003) or actual sampling results, as determined by the City Engineer. Dischargers who believe that their total suspended solids concentration is sufficiently low to qualify for a different category of sewer service charge billing may apply to the City Manager in writing for a variance in accordance with Chula Vista Municipal Code Section 13.14.130. When there is a change in the rate payer, the category will be re-evaluated.

## TAX BILL

Charges for single-family residential dwellings, multiple family dwelling and commercial industrial discharges collected on the Tax bill shall be based on a recent 12 month water usage period.

## HIGH VOLUME DISCHARGERS

Premises that discharge over 25,000 gallons per day (gpd) are classified as high volume dischargers. These dischargers shall be billed bi-monthly by the City of Chula Vista. Wastewater discharge shall be assumed to be 90 percent of water consumed, unless established otherwise by an approved variance.

The Sewer Service Charge is determined on an individual basis, and is comprised of a **Fixed Service Charge (FSC)** and a **Variable Commodity Charge (VCC)**. The FSC is based on the water meter size and the VCC is calculated by multiplying the Sewer Rate by the Volume of Sewer Discharge

in hundred cubic feet (HCF). The Sewer Rate is determined by the strength of the discharge (Chemical Oxygen Demand (COD) and Total Suspended Solids (TSS)).

The Sewer Service Charge is calculated as follows:

FSC	+	VCC	=	Sewer Service Charge
-----	---	-----	---	----------------------

FSC = Based on the water meter size

VCC = Sewer Rate (\$/HCF) x Volume of Sewer Discharge (HCF)

The Sewer Rate is subject to change. Said change is usually necessitated by the increase in the cost of wastewater treatment and the maintenance of the City's sewer collection system. The Sewer Rate is reviewed on a yearly basis.

### SEWER SERVICE VARIANCE FEES

The owner or occupant of any premises requesting a variance from the sewer service charges pursuant to the provisions of this section and the rules and regulations approved by resolution of the City Council shall pay a fee in the sum of \$150.00 to cover the cost of investigation of said request; provided, however, that no fee shall be charged for a request for total exemption from the sewer service charge. In addition, a special handling charge to cover the cost of billing and inspection to be paid per building may be established in the resolution granting the variance, provided that the minimum such charge shall be in the sum of \$3.75.

### INDUSTRIAL WASTEWATER DISCHARGE

The fee for an initial, annual renewal, or amended industrial wastewater discharge permit shall be based upon the permit category to which the permitted industry is assigned, and the average daily volume of industrial wastewater discharged to the public sewer system in the amount set forth below.

#### 1. Permit Categories

**Category 1:** Industries which discharge wastewater from a process subject to EPA categorical standards set forth in 40 Code of Federal Regulations (CFR), Section 403, Appendix C, as amended from time to time. The industries currently subject to EPA categorical standards are included herein by reference, but are subject to change. (SEE APPENDIX F)

**Category 2:** Industries that are not subject to EPA categorical standards but which discharge wastewater containing toxic pollutants identified by EPA in 40 CFR, Section 403, Appendix B. The current list of toxic pollutants identified by EPA is included herein by reference, but is subject to change. (SEE APPENDIX F)

**Category 3:** Industries not subject to EPA categorical standards and which do not discharge wastewater containing EPA identified toxic pollutants.

#### 2. Annual Permit Fee

FLOW (AVERAGE DAILY, GALLONS PER DAY)	PERMIT CATEGORY		
	1	2	3
> 100,000	\$2,000	\$1,200	\$1,000
50,001 – 100,000	\$1,500	\$1,000	\$600
25,001 – 50,000	\$1,250	\$600	\$500

100 – 10,000	\$500	\$275	\$200
< 100	\$25	\$25	\$25

#### 3. Compliance Charges

Industries not in compliance with industrial wastewater discharge permit requirements shall pay a fee to recover the full cost including overhead of enforcing compliance.

**STORM DRAINS**

## 1. Storm Drain fees

In addition to other fees, assessments, or charges provided by the City code or otherwise, the owner or occupant of any parcels of real property which parcel is connected to the wastewater system of the City and to a wastewater system maintained by Sweetwater Authority, the Otay Municipal Water District, or the California-American Water Company, shall pay a storm drain fee as follows:
